COMMUNICATION

Dear Sir:

Upon reviewing the Official Filing Receipt we noted that the USPTO had changed the Domestic Priority Data application number and then put a statement that "Data provided by applicant is not consistent with PTO records." The correct PCT number as published is PCT/IL04/001119. This is the number we submitted to the USPTO.

My office has spoken with the PCT Help Desk on two different occasions and was advised that the computer system cannot accommodate that many numbers after the slash so the Office generally deletes a leading zero. Therefore the number on the filing receipt is correct. If the Office considers the truncated number to be correct, then we feel the statement about inconsistency should be removed from the filing receipt. We were advised that we would have to prepare a written request if we wanted documentation for our records.

Respectfully submitted,

Jeff Rothenberg, Reg. No. 26,429
Attorney for Applicant
